Munn, Lance L., Robert J. Melder, and Rakesh K. Jain. 1994. *Biophys J.* 67:889–895.

Eq. 8, which reads:

$$f(x - u_1\tau) = \begin{cases} C \left[ 1 + \frac{Cv}{u_1 h} (x - u_1\tau) \right] & x - u_1\tau \leq 0 \\ C \left[ 1 + \frac{v}{u_0 h} (x - u_1\tau) \right] & x - u_1\tau > 0 \end{cases}$$

should correctly be written as:

$$f(x - u_1\tau) = \begin{cases} C \left[ 1 + \frac{v}{u_1 h} (x - u_1\tau) \right] & x - u_1\tau \leq 0 \\ C \left[ 1 + \frac{v}{u_0 h} (x - u_1\tau) \right] & x - u_1\tau > 0 \end{cases}$$
